BAD BAILWAY RECORDS.

open switch at Palestine, O.; a stalled freight and a passenger train unwarned, near Chili, in this State ; a vestibule train at Homer, Ill., which couldn't wait for a fast freight to get side-tracked : bad rails, or loosely laid ones, it is asserted by men who have examined the track, near Kalamazoo,

These circumstances are back of four railway wrecks which flours in the news reports of this morning, and they follow closely the West Shore horror of Thursday, in which fifteen lives were lost. It makes a bad record for railway management. Concerning only one of the four accidents does there seem to be a doubt that it was due to somebody's careless. ness or criminal negligence. That one is the Kalamazoo affair, in regard to which officers of the road claim that it was the work of train wreckers.

The men who control pessenger railways take upon themselves, in conveying loads of humanity from place to place, the gravest responsibilities. But they do it without besitation and with the guarantee that all possible care and system shall attend the fulfilment of their contracts. Because of the weightiness of responsibility invo.ved, because of the precious lives lost or endangered through any failure to live up to that guarantee, it becomes imperative that carelessness in the conduct of any train, or negligence in any particular connected with the running and guiding of trains, should be promptly punished. Whether lives are lost or not, there should be a penalty for the slip that causes a wreck. Such great possibilities are often involved that even little consequences must be always con-

Such accidents as have just been referred to point to the necessity of better direction and more constant watchfulness as to the vay in which even the ordinary rules and regulations of railway service are carried out. If slipshod methods prevail among employees it is more than likely that there is something slipshod also in the way in which the employees are overlooked by those above them.

COURAGEOUS TO NO PURPOSE. Capt. Lawlos, of the dory Sea Ser-

pent, has successfully completed a trip He is, therefore, in condition to enjoy be wholly repaid. the notoriety falling to a man who has gone pluckily through a hazardous undertaking. But beyond achieving this noto-Mermaid and demonstrating what good be looks the picture of health. luck may attend even a foolbardy enterprice, Capt. Lawron has gained nothing.

This is saying nothing against his per- probably will not lie quessity upon his head. sonal bravery, which he has proven. It is only intima ing that his courage may been lost at sea. Suppose even now that the Mermaid and its captain be seen no more. Could it then be said that even at the cost of one life it paid to tempt fate as the two captains have done?

All doubt as to the thoroughly fatal effect of the electric shocks given by the prison dynamos seems now to be removed. Spiritualists testify that it took six hours to revive KEMMLER's spirit, so that he might communicate with the mediums, while in the cases of the Sing Sing victims twenty-six hours each was required. KERMLER's spook Jefused to ve anything to say to Warden Dunston. Evidently he bears a living grudge, though he is himself quite dead. And is not this fresh evidence that the electroion at Auburn was not all that it should have been?

Immediately after a murder is committed the police have the habit of arresting some innocent person, working a net of circumstantial evidence about him. ruining his reputation forever, and then announcing that it is all a mistake. The arrest and discharge of Martin Phil-Lips for the killing of Harras Borinson a a painful illustration of it.

It may be asked with justice why \$2,400 a year should be paid to the Secretary of the Grant Monument Fund. Why this money should be thrown away there seems no good reason. A reporter who called three times at the Secretary's office yesterday to see what work was really done found it closed on each visit.

The "salt defense" plea that "BERT" Wilsten will put in for the very coldblooded murber of CHARLES E. GOODWIN, 2. is not likely to have much weight with a jury. This lipe of defense is be-

HEIGHT OF CHIVALRY.

Would-Be Rescuer Saved from Drowning by the Man He Went

An exciting story of the rescue from drowning of a Japanese, by an Englishman whose life the Japanese himself had set out to save, is told in a Japanese

paper, the Kobe Shimbun, The Englishman was a resident of Tokio. Being on his way to Yokohama. and finding no ferry-boat owing to the swollen state of the river, he determined to swim across with his clothing in a bundle tied on his head.

die tied on his head.

The daring attempt attracted a crowd of sightseers, one of whom, observing that the stranger was apparently in difficulty, plunged in and swam to his rescue. The Japanese was a good swimmer, but the waters ran swiftly, his strength gave out and he was carried down stream. Then arose a cry from the spectators, for they saw that the Japanese was going to sink.

By this time the Englishman had almost reached the opposite bonk, but when he heard the crises of the crowd he turned about, and seeing the drowning Japanese

heard the criss of the crown he turned about, and seeing the drowning Japanese he again faced the current, and coming up with the drowning man, caught him with one arm and swimming with the other hand he brought him ashore amid the cheers of the crowd.

"How chivalrous was his action!" exclaims the Japanese tournalist in concluclaims the Japanese journalist in conclusion. "His name we know not, but he has our highest admiration."

I had hearthurn and My month was all the coasted up. I had hearthurn and my month was all to get well. If people could only be counted not not get what Dre. McCoy and Wildman can do for them, there wouldn't be so many people suffering with there wouldn't be so many people suffering with

5 East 42d st., near Grand Central Depos, and Broadway, corner 14th st., New York, and 18 Montague st., Brooklyn, where all curable case are treated with success. If you live at a distans write for a symptom blank. Address all mailto! East 42d st. Office hours—9 to 11 A. M., 210 4P. M., 7 to 9 P. M. daily. Sundays 9 to 12 A. M.

THE CLEANER prolong her stay in Lordon. It was berte tention to get back to New York some time in September, but the superior attractions of " City of Fogs" seems to have prevailed. She and Belle Urquhart have hired a house or Brooks street, London, and propose stopping there through the Winter. They are having

a lovely time. Dr. Nagle, of the Board of Health, is spend ing the Summer down on the New Jersey coast, near Scalzight. He has his camera with him, and when he is not engaged in tak-ing snap shots at striking bits of seaside scenery, he is whipping the Shrewsbury for weakfish and sally growlers.

In the corridor of the Astor House the other day I ran across Excise Commissioner Koch, who is stopping there during the absence of his family in Europe. He looks much better than he did before he went abroad and tried the Carlsbad baths. On Wednesday night a number of his friends presented him with life-size portraft of himself in black and white

Edward Bell, whom Maud Harrison is going o marry, was once a lawyer in Buffalo. He s said to have been at one time madly in love with Frankie Folsom, who, however, preferred to be mistress of the White House. Miss Har rison is now in Europe. The marriage will take place some time in November.

Astronomical fakirs have had a hard time muggy and cloudy weather has forced them to suspend business almost entirely, and street corner telescopes have been at a disthe present time, for the rings of Saturn are profits to be derived from the curlosity of

amateur star-gazers have utterly failed to materialize. A gentleman just in from Ohio speaks in Mrs. Campbell, he says, is of great assistance to her husband. She is a handsome brunette, bright, witty and intellectual, and with that

rare gift—an abundance of tact. Bichloride of gold is becoming more and popular as a cure for the whiskey habit. It is given in hypodermic injections. Dr. Keeley, who has experimented largely in this direc tion, claims that it is also a cure for the mor-

phine habit. At the bridge entrance this morning I heard two young ladies blaming each other for being late in keeping the appointment. On comparing notes they found that each had been at the trysting-place exactly one hour, one being at the head of the stairs and the other at the foot, just out of sight of each other.

George Francis Train, the man who projected the transcontinental rallway system and who drove the golden spike that completed the Union Pacific Ratiroad, sat in the spectators' gailery at the Stock Exchange and chuckled in ghoulish gice as he saw the fig-ures on the "U. P." board drop, drop, drop in the slump of the past few days. Train lost his millions years ago, since which he has been a prophet of evil for all the world, and especially for his old enemy, Jay Gould.

An acquaintance of mine who has just returned from Bar Harbor says that the weather there for the past month has been so cold that Winter overcoats were absolutel necessary of an evening, and lively exercise through the day was needed to keep the bad as that in New York, but judging from the mutterings and growlings of Coney Island hotel-keepers the season must have been uncommonly slow. It is not often that Jay Gould comes fore

ward with a \$5,000,000 ante, and lets the public know of it beforehand. Yet it is said that he has chipped in handsomely this time to help Union Pacific out of a hole. Those who declare that Mr. Gould has lost all interest in Wall street will now have to revise their calculations. I saw quite a number of theatrical people

deporting themselves in Atlantic City the other day with more or less apparent enjoyment. Sydney Drew was there, doing the Windsor Hotel with much persistency, with his sister, Mrs. Georgie Drew Barrymore. Bob Clarke, of "The Still Alarm" company, and Miss Lilla Vane were also around. In the vast comparatively unnoticed.
